

#ExperienceFieldService starter package

Your quick entry to your field service project

# Field Service the easy way – Digital resource planning and mobile execution with our packaged solution

The ORBIS #ExperienceFieldService Starter-Paket makes it quick and lean to enter into a comprehensive field service management solution.

Plan your service deployments using digital resource planning and ensure that **the right technician can quickly** provide on-site support for the customer. **Configure** the features you need to make a field service management solution that is right for you – you decide!

- ◆ Lean entry into the SAP CX world
- ◆ Quick go-live of anticipated processes
- ◆ Set calculable project budget and planning dependability
- ◆ Clearly delineated project duration of 10 to 12 weeks (base package)

### And that's not all:

To utilise the full power of SAP CX, we rely on the different starter packages that can be combined with each other, which you can compile into a complete package tailored to you.
